    - Hanging version with side mount slides (22” with over-travel)
    - Compost bins also available
    - 3 and 4 bin recycle center also available
Recycle Drawers

STANDARD CONFIGURATIONS:
The four basic models of the Western Dovetail Recycle Pull-Out Program are designed for Blum TANDEM slides for use with 35 quart or 50 quart plastic waste bins with tight fitting bin retainers to hold the bins in place and prevent items from falling or spilling under the bins. The bin retainers are removable and replaceable and available in different materials and can be changed out for different bins.

The 12”, 15” and 18” cabinet opening models are compatible with the Blum TANDEM plus BLUMOTION 568R Waste/Recycle Sets. The Blum Waste/Recycle Set comes preconfigured to mount the optional SERVO-DRIVE automatic opening mechanism. The 21” opening model can be used with the Blum TANDEM 568R slides (without the complete waste/recycle kit) and SERVO-DRIVE can be added. All of these models are available as complete kits with hardware and bins or à la carte with just the wood drawer prepped for Blum TANDEM with Locking Devices installed.

The models pictured here are solid Maple. This Program is available in 5/8” thick solid Hard Maple and is also available in 1/2” thick prefinished 9-ply birch.

RP-SA35B: Single Axial 35 qt bin, Scallop Sides, 1 Lateral divider for storage compartment, Notched and Drilled for TANDEM with Locking Devices Installed.
- 14 1/4”H Front/6 1/4” H Back x 11 5/8”W x 21”D

WWW.DRAWER.COM
Thank you for purchasing the Western Dovetail Waste/Recycle Drawer. Before you attempt to install this drawer please read these instructions and make sure you have all the necessary equipment and accessories.

This product does not include slides, locking devices, or mounting brackets. You must purchase these items separately. By purchasing these items individually, you have the choice of several different hardware and bin configurations. Some products may include bins. Be sure you confirm whether your product includes bins and lids.

**MEASURE YOUR OPENING AND CHOOSE YOUR RECYCLE DRAWER**

Measure the **Height**, **Width**, and **Depth** of the opening in which the drawer will be installed to determine which recycle drawer is best for your application.

**HEIGHT** - Verify the height of the opening
- 20” min opening height for any unit with 35qt. bin
- 21” min opening height for any unit with 35qt. bin with lid
- 24” min opening height for any unit with 50qt. bin
- 25” min opening height for any unit with 50qt. bin with lid

**WIDTH** - Verify the width of the opening
- 12” min opening width for SA35 and SA50 models
- 15” min opening width for DL35 model
- 18” min opening width for DL50 model
- 21” opening for width for DA35 model
- 22 ½” opening width for DA50 model

**DEPTH** - Verify the depth of the cabinet can accommodate a 21” Blum TANDEM slide.
- 21 3/4” min inside depth required for 21” Blum TANDEM
- 21 7/8” min inside depth required for TANDEM waste/recycle set
- 22 5/8” min inside depth required for 21” TANDEM with SERVO DRIVE

*Note: 15” and 18” slide models are also available for custom orders*

**CHOOSE YOUR DRAWER SLIDES**

If you are installing this item in the exact minimum opening size, you can use your choice of the following:
- Blum Tandem 562 (discontinued model)
- Blum Tandem 563.(point) (new short model)
- Blum Tandem 563H (new standard model)
- Blum Tandem 568 Heavy Duty (old HD model)
- Blum Tandem 568R Heavy Duty (current HD recycle drawer model with down mount screw holes)
- Blum Tandem 569 Heavy Duty (current HD model)

If you are installing this item in a larger opening and cannot attach to the cabinet sides, only the following slides have holes provided to attach to the bottom of the cabinet:
- Blum Tandem 563H (new standard model)
- Blum Tandem 568R (current HD recycle drawer model with down mount screw holes)
- Blum Tandem 568R Waste/Recycle set (with spreader bars for set 12”, 15”, and 18” widths)

*Notes:*
1. Single bin units can work with standard duty slides, but double bin units should use the heavy duty slides.
2. If the cabinet opening is larger than the minimum opening size, you should choose the Blum 568R or 568R Waste/Recycle Set. The ‘R’ series slides mount to the floor of the cabinet.
3. Also, the new 563 slides come with 4 holes on each slide so they can be attached to the cabinet floor.
4. In some cases you may wish to use a “Universal Mounting Bracket” to attach to the bottom of the cabinet.
5. You may also block out the opening to use standard slides.

*Always refer to the specific installation guidelines from the hardware manufacturer for more detailed hardware installation instructions.*

February 21, 2014
For the best performance, add a Blum SERVO DRIVE!
Ask for more information on the Blum SERVO DRIVE automatic opening system for electrically powered touch sensitive opening!

3 CHOOSE LOCKING DEVICES
Choose the locking devices that match your hardware selection and installation requirements.
These drawers come notched and drilled to receive any of the Blum Tandem locking devices. The new version of the locking devices designed to work with the 563 and 569 series slides have optional built-in side-to-side adjustment. These recycle drawers come with holes drilled for both types of locking devices. There are 3 holes predrilled for the locking devices so any type can be used.

4 CHOOSE YOUR WASTE BINS
Choose the bins that match your drawer selection. Each model of the recycle pull-outs includes the bin size in the name. Example: The RPDL35HM is a Recycle Pull-out with Double Lateral 35qt bins and use the RV-35 bins made by Rev-A-Shelf®. These bins are available through most major hardware distributors. Any model number with 35 in the SKU uses 35 quart RV-35 bins, and model with "50" in the SKU uses 50 quart RV-50 bins.

GET STARTED
Inside the package you will find:
(1) Wooden Waste/Recycle Pull-Out Drawer
(1) Removable Bin Retainer (plywood panel with cutout(s) for bin(s)
(1) Catalog/Instruction Sheet (this document)

Some kits may include optional bins, lids, slides and SERVO DRIVE

Before you install your Waste/Recycle Drawer you will need to have selected items from each of the following groups NOT included in the standard package:

Slides:
(1) Set of Blum Tandem slides (see below for choices)

Screws for locking device installation
(4) #6 x 5/8" pan head (to attach the locking devices)

Screws for slide installation
(8) #6 x 5/8" flat head (for 563/569 slides)
- or - (8) #7 x 5/8" flat head (for 562/568 slides screwed to cabinet sides)
- or - (8) #6 x 3/4" flat head (for 568R slides screwed to cabinet bottom)
- or - no screws required for 568R Waste/Recycle Set (includes screws to attach to bottom of cabinet)

Drawer front mounting screws
(4) 1 1/8" truss head screws for ½" plywood drawers
- or - (4) 1 1/4" truss head screws for 5/8" solid maple drawers

Waste bin(s)
(1 or 2) Rev-A-Shelf® RV-35 (35 Quart Bins) or new compact 35 qt. bins
- or - (1 or 2) Rev-A-Shelf RV-50 (50 Quart bins)
NEW Infra red touchless auto opening waste bin

SERVO DRIVE (optional electronic assist opening device)

Tools:
Measuring tape
Screwdriver/screw gun/driver tips
Drill and drill bits (5/16" for adjustable drawer front attachment)
Pin Nailer (optional)
Double Stick Tape (optional)

Follow the installation guidelines of the specific Blum TANDEM model you have chosen for the project.

ATTACH THIS UNIT TO YOUR CABINET DOOR THE SAME WAY YOU WOULD NORMALLY ATTACH YOUR WOOD DRAWERS TO THE DRAWER FACE. No front attachment brackets are included with this unit. Drill the drawer front attachment holes in the sub-front in the same way you attach other drawers on your project. If you have questions or need assistance with installation of your waste bin unit, please call 1-800-800-3683. Thank You.
